

ASTRAQ

6x4 Battery-Electric Prime Mover

Configuration Specification | 6x4 BEV Prime Mover

KEY VEHICLE PARAMETERS

Vehicle type	6x4 battery-electric prime mover, right-hand / centre-driving configuration
Cabin	High-roof, flat-floor aerodynamic cab; dual-door configuration; white body with ASTRAQ branding
Dimensions (L x W x H)	7,500, 2,500, 3,500 mm
Wheelbase	4,550 + 1,350 mm
Kerb weight	10,900 kg including battery system
Gross combination mass	Up to 60,000 kg for B-Double / multi-trailer line-haul operation
Battery system	LFP battery system, approx. 500-600 kWh; underfloor battery layout
Electrical platform	800 V high-voltage platform
Driving motor	Dual-motor electric drive, approx. 600 hp class
Driving range	> 400 km under intended line-haul operation profile
Charging / energy supply	Fast charging and battery-swap compatible; swap-led operation strategy
Maximum gradeability	>= 20%

ASTRAQ 6x4 Battery-Electric Prime Mover - Configuration

POWERTRAIN & CHASSIS

Drive system	Direct electric drive with regenerative braking
Rated / peak motor power	Approx. 2 x 138 kW rated / 2 x 290 kW peak benchmark class
Rated / peak torque	Approx. 2 x 300 Nm rated / 2 x 820 Nm peak benchmark class
Front axle / rear axle	Approx. 5.6 t front axle / 13 t rear tandem axle benchmark class
Suspension	Front independent suspension and full air-suspension configuration
Tyres	12R22.5 heavy-duty road tyres
Frame	Heavy-duty ladder frame with integrated battery protection
Fifth wheel	Prime mover fifth-wheel coupling for semi-trailer operation

SAFETY, INTELLIGENCE & COMFORT

Braking system	Electronic braking system with EMB, ABS, EBS and ESC
Active safety	AEB, LDW/LDWS, FCW and driver assistance functions
Autonomous readiness	L2+ capable hardware architecture with upgrade path
Chassis-by-wire	Brake-by-wire, steer-by-wire and drive-by-wire architecture
Sensor package	High-resolution cameras, millimetre-wave radar and LiDAR-ready layout
Redundancy	Independent computing, sensor and power backup design
Connectivity	Satellite positioning; V2X upgradable electrical architecture
Comfort	Air-suspension driver seat, air conditioning and digital cockpit interface
